

# Amr Ahmed

ENGINEER - DEVELOPER - DESIGNER

## About

I mainly study refining and petrochemical engineering at suez university, I also love technology in every form and medium, learning new things every day, and constantly tackling new challenges.

I've learnt alot of stuff online like web design, web development, UI/UX, graphic design, marketing and already works as a freelancer and founded my own small start-up, and joined alot of student activities & charities to help my society and colleagues at my college where i also earned a stunning experiences by working with great people out there

I consider myself a unique production powerhouse, equipped with a wide range of skills and the constant desire to push my boundaries and create something new everyday.
